

REVEN[®] DFD and DSD Series

Flame-arresting and sound-absorbing coffered ceiling

RANGE OF APPLICATION

Flame-arresting and waterproof coffer system for the protection of the building structure and the room-wide capturing of exhaust air from food-production plants and from cooking appliances in commercial kitchens.

TECHNICAL HIGHLIGHTS

- Flame-arresting coffered ceiling in accordance with UL 1046.
- Easy removal of the coffers without any tools.
- Circumferential wall junction profile.
- The ceiling coffers and all materials used for their production are 100 % rustproof in accordance with the requirements of the German trademark association for stainless steel Warenzeichenverband Edelstahl Rostfrei e.V.
- Optionally available in aluminium.
- Designed, constructed and produced in Germany.
- Lifetime guarantee on the corrosion resistance of the ceiling coffers.

RANGE OF APPLICATION

Sound-absorbing and splash-water proof coffer system for the protection of the building structure and the room-wide capturing of exhaust air from food-production plants and cooking appliances in commercial kitchens.

TECHNICAL HIGHLIGHTS

- Sound-absorbing coffered ceiling with noise abatement certified by accredited institute.
- Integrated sound-absorbing mats with waterproof and vapour-tight film sleeve, film thickness below 50 microns to increase sound permeability.
- Sound-absorbing panels satisfy the requirements of fire-protection class A thanks to special mineral wool.
- Easy removal of the coffers without any tools.
- Circumferential wall junction profile.
- The ceiling coffers and all materials used for their production are 100 % rustproof in accordance with the requirements of the German trademark association for stainless steel Warenzeichenverband Edelstahl Rostfrei e.V.
- Optionally available in aluminium.
- Designed, constructed and produced in Germany.
- Lifetime guarantee on the corrosion resistance of the ceiling coffers.
